I. Summary:

This bill creates the Operating Trust Fund within the Executive Office of the Governor (EOG) in order to implement SB 1238 which reorganizes the Department of Management Services and transfers programs to the EOG. This trust fund is established for use as a depository of fees and related revenue for the purpose of supporting program operations and for other purposes as may be appropriate.

The bill provides that the act shall take effect on the same date that SB 1238 or similar legislation takes effect.

This bill does not substantially amend, create, or repeal any of the Florida Statutes.

II. Present Situation:

Article III, s. 19(f), of the State Constitution requires that every trust fund be created by a three-fifths vote of the membership in each house of the Legislature in a separate bill for the sole purpose of creating that trust fund. The Constitution also provides that all newly created trust funds terminate not more than four years after the initial creation unless re-created.

In order to meet accounting standards established by the Government Accounting Standards Board, s. 215.32, F.S., requires that agencies have trust funds for day-to-day operations. One of the required trust funds is an operations trust fund.

Currently, the EOG does not have an Operating Trust Fund.

III. Effect of Proposed Changes:

The creation of this trust fund will allow the EOG to receive fees and other related funds that can be used to support program operations. This trust fund will serve as the depository for those programs and funds.

The creation of this trust fund is contingent upon passage of SB 1238 or similar legislation taking effect and will align office accounts with the requirements of s. 215.32, F.S.

The trust fund will terminate four years from creation, pursuant to Art. III, s. 19(f)(2) of the State Constitution, unless re-created by the Legislature.
